

OJUS GUPTA

AI/ML Engineer | Generative AI | Agentic AI

☎ +91-70543-93898 | ✉ ojusgupta004@gmail.com | 🔗 LinkedIn | 🌐 GitHub

SUMMARY

B.Tech CSE (AI & ML) student with hands-on experience in Machine Learning, Generative AI, NLP, and cloud deployment. Built ML classification models, RAG applications, and AWS-based ML inference services. Strong foundation in Python, SQL, data preparation, model evaluation, and modern AI application development.

EDUCATION

Vellore Institute of Technology

B.Tech, Computer Science and Engineering (AI & ML) — CGPA: 8.33

2023–2027

Bhopal, Madhya Pradesh

TECHNICAL SKILLS

Programming & Data: Python, SQL, Java, Pandas, NumPy

Data Mining & Warehousing: Data Mining, Data Warehousing, Data Cleaning, ETL, Model Evaluation

Machine Learning: Scikit-learn, Supervised Learning, Regression, Classification, Clustering, Feature Engineering

Deep Learning: PyTorch, Neural Networks, Model Training

NLP: NLP, Hugging Face Transformers, Embeddings

Generative & Agentic AI: RAG, Agentic AI, LangChain, LangGraph, Prompt Engineering, LLMs, MCP Basics, Tool Calling

Cloud & Deployment: AWS, SageMaker, Lambda, EC2, S3, API Gateway, VPC, FastAPI, REST APIs

Databases & Tools: SQL, NoSQL, ChromaDB, Git, GitHub, Pytest, Docker

EXPERIENCE

Web & CRM Development Intern

Jul 2025–Sep 2025

Janviba Ventures (Nifty Invest)

Bhopal, MP

- Built and maintained production websites and internal CRM dashboards for two client platforms, supporting business operations and reporting workflows.
- Developed dashboard features and debugging workflows using AI-assisted development tools, accelerating implementation and issue resolution.
- Worked directly with founders to translate business requirements into technical solutions and improve internal reporting workflows.

Design Core Member, Cloud Systems

Jan 2025–Sep 2025

Software Development Club, Vellore Institute of Technology

Bhopal, MP

- Contributed to architecture decisions for club platforms using AWS free-tier infrastructure.
- Automated recurring event and outreach workflows with Python scripts, reducing repetitive manual coordination.

PROJECTS

Nexus Console — Agentic RAG Academic Assistant

[GitHub Repository](#)

- Built a RAG-based academic assistant indexing **4,300+ document chunks from 17+ textbooks** using ChromaDB for semantic retrieval.
- Developed an NLP document-ingestion pipeline using Hugging Face embeddings and sentence-based chunking to preserve document context.
- Implemented query orchestration with **LangChain** for multi-step questions and grounded, citation-aware responses, exposed through FastAPI.

AWS SageMaker ML Inference Pipeline

[GitHub Repository](#)

- Built an AWS-based ML inference pipeline using **SageMaker, EC2, API Gateway, and VPC** for real-time model serving.
- Implemented event-driven workflows using **Lambda and S3**, with a 20+ test Pytest suite for inference and API workflows.
- Achieved **98.5% uptime** across inference services during testing and deployment.

Predictive ML Pipeline for Cardiovascular Classification

[GitHub Repository](#)

- Built a binary classification pipeline using the UCI Heart Disease dataset, comparing **AdaBoost and Random Forest** using accuracy, precision, recall, and F1-score.
- Performed data preprocessing, feature engineering, and model evaluation to develop the classification pipeline.
- **1st Place** at a college-level ML hackathon.

CERTIFICATIONS & ACHIEVEMENTS

- Applied Machine Learning in Python — University of Michigan, Coursera
- Oracle Cloud Infrastructure Certified Architect Associate — Oracle
- Oracle Agentic AI Foundations Associate — Oracle
- Cloud Computing — NPTEL
- AWS Cloud Practitioner Essentials — AWS
- **1st Place, Linpack Hackathon (ML) | Winner, Computer Vision Hackathon (AI Posture Coach)**
